

PLEASE WATCH THE ROAD...

AND STOP TO HELP ME

MY LIFE MATTERS TOO.

Long Point Causeway Improvement Project

When completed in the fall of 2016, the Project will have achieved the following:

Installed more than six kilometers of exclusion fencing along the road

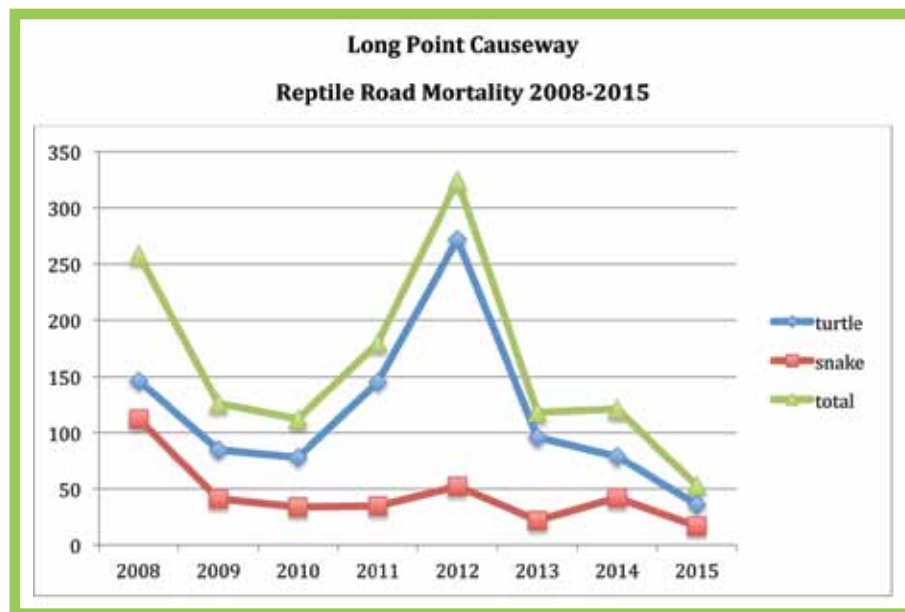

Created public awareness of the project's efforts to reduce road mortality

Conducted annual reptile road mortality surveys since 2008

Installed three aquatic and nine terrestrial wildlife culverts under the road

Reduced reptile road mortality by 80 per cent since the project began in 2008

Monitored wildlife movement through the culverts using remote cameras
